

Special K[®] 2.0

GUARANTEED MINIMUM ANALYSIS: Soluble Potash (K2O) 30%

GENERAL INFORMATION

SPECIAL[®] K 2.0 30% K2O is a foliar nutrient solution. This product does not contain any chloride and has a low salt index.

This product can be applied to all crops. Applications of this product must be based on leaf or soil analysis, deficiency symptoms or plant requirements.

Shake well before product is poured into sprayer.

NOTE

SPECIAL[®] K 2.0 is recommended for use as a supplement to a complete fertilizer program that is adapted to the fertility level of the soil.

Consult your agricultural representative for advice in selecting treatments from this label that best fit local conditions

FOLIAR TREATMENTS

For best results, treat early in the season. Treat the crop when actively growing, early in the morning, late in the day or during overcast periods. Used between 200 L and 500 L of water per ha. With Ultra Low Volume (U.L.V.) sprayers, use at least 50 L of water/ha. If the spray solution is too concentrated, slight injury to the leaves could occur. For aerial applications, do not use more than one (1) L of this product for every four (4) L of water.

WARNING

Do not use this product in a mixture with insecticides unless indicated otherwise.

In certain conditions, Carbon Dioxide (CO₂) gas may be released when the product is incorporated to a tank mix. The spray tank must NOT be sealed during this process (first 5 minutes) to prevent any accumulation of this gas in the tank.

Make sure to mix to the quantity of water indicated on the product label and maintain agitation throughout the application period.

If uncertain of a tank mix, it is always recommended to use a jar test (in the same proportions as in the final spray mixture) to confirm the compatibility of the tank mix.

APPLICATION AND PROCEDURES

Field, small fruit, vegetable and tree fruit crops: apply 5 to 15 L/ha for each application at pre-bloom, post-bloom, mid-season and pre-harvest. Mix at least 10 parts of water for each part of this product.

DISPOSAL OF EMPTY CONTAINERS: Triple rinse, dispose of empty container in accordance with municipal/provincial/federal regulations or recycle through the Clean Farms Empty Container Recycling Program.

STORAGE

This product must be kept above 0 °C.

DISPOSAL OF EMPTY CONTAINERS: Triple rinse, dispose of empty container in accordance with municipal/provincial/federal regulations or recycle through the Clean Farms Empty Container Recycling Program.

NOTICE

Seller warrants that the product consists of the ingredient specified and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. No one, other than the officer of seller, is authorized to make any warranty, guarantee or direction concerning this product.

CAUTION: This product contains potash and should be used only as recommended. It may prove harmful when misused. Keep out of reach of children.

WARNING

Read label before use.
Keep out of reach of children.

Hazard Statements (GHS-CA) :
